USB to Audio Converter

UDA-200 turns and converts any USB port into audio ports, allowing users to connect their Speakers and Microphone when there are no audio ports available on their PC or Laptop Computers. It offers one the most convenient connectivity when both Vocal and Audio ports are in demand.

Features

- Fully Compliant with USB Specification 1.1
- Supports AES/EBU, IEC60958, & S/PDIF Consumer Formats for Stereo Pulse-Code Modulation (PCM) audio
- Supports Hot-Swapping for a Quick Switch in Audio Devices without Shutting Down your PC
- Supports Suspend and Resume Power Management
- Supports Plug & Play
- Mute function
- Supports Bus Powered Mode
- Compatible with Win 2000 / XP / Vista / 7 / 8 / 8.1 / 10; Mac O/S 8.6/9.x/10.x or higher
