USB 3.0 4-Port Data Switch

The intelligent USB 3.0 Data Switch allows you sharing a single USB 3.0 peripheral with 4 different computer systems, avoiding the cost of purchasing duplicate peripherals or the hassle of swapping cables from one system to the others.

This unit delivers speed and flexibility, with simple push-button controls for switching between computers, and supports Super Speed USB bandwidth (up to 5 Gbps) ensuring fast data transfers to/from your shared peripheral device. The switch is also backward compatible with USB 2.0/1.1 (480Mbps, 12Mbps respectively), so you don't have to worry about your computer or older peripherals not performing.

The switch can also be connected to a USB hub, to expand the number of devices you can share between the 4 connected systems, or to a USB drive enclosure or docking station, for a shared external storage solution.

Features

- USB 3.0 data transfer rates up to 5 Gbps
- Fully Compliant with USB specification 1.1, 2.0 and 3.0
- Push-button controls for switching between computers
- By bus powered, no additional power adapter required
- Compatible OS thru USB 2.0: Windows 98SE /ME /2000 /XP /Vista /7 /8 /8.1 /10 /11; Mac OS 8.6 or higher
- Compatible OS thru USB 3.0: Windows XP / Vista / 7 / 8 / 8.1 / 10 / 11; Mac OS X Mountain Lion or higher
- Plug-and-Play, no software or drivers required

Model No.		UDS-3C41
Data Transfer Rate		1.5M / 12M / 480M / 5G bps
LED		4
PC Selector		Push button
USB Specification		USB 1.1/2.0/3.0 compliant
Connector	Upstream	USB 3.0 B Female x 4
	Downstream	USB 3.0 A Female
Power Mode		Bus powered
Extension Cable Length	Input	Max. 2m
	Output	Max.1m
Housing		Plastic
Dimension (L x W x H)		95 x 69 x 26 mm
